

**It takes a team
to go from good
to great.**

Join forces. Make an impact.
Innovate for a world free of pain.

Graduate Global Operations (m/f/d) Focus Site Engineering & Facility Management

Graduate | Temporary | Full-time | On-Site

What the job looks like

Each day you'll enjoy a variety of challenges, such as:

- During your programme you'll dive into different functions and areas within Global Operations and learn about our operating model and key processes
- Your projects will be diverse and mostly with global impact and you will have plenty of chances to present your results to the senior leaders of global operations
- You will actively work on your development, which is supported by a (Senior) Leader Mentor including ambition talks, coaching sessions, shadowing & performing reviews
- You will participate in global trainings for all graduates as well as customized ones per individual programme
- Additionally, you will be part of our Global Graduate Network

What you'll bring to the table

To make the most of this role and truly thrive, you should have:

- An excellent degree in Business Engineering, Civil Engineering, Mechanical Engineering, ideally with the focus in Maintenance and Facility Management
- First professional experience in operations with the focus in civil engineering, production, maintenance or facility management (e.g. through internships) with continuous improvement mindset
- Strong communication, intercultural and social skills as well as an enthusiastic can-do attitude and the drive to shape your processes every day
- Strong analytical skills
- Fluency in English and German
- And the strong motivation to learn and grow as a future leader in our company

Come on board & look forward to

- Attractive compensation and extensive social benefits
- 30 vacation days + bridging days
- Wide range of company benefits e.g. health initiatives & sports activities
- Top modern international working environment

Our Global Operations team ensures a safe, efficient and reliable product supply to patients. The experts in this area constantly strive to ensure excellence at every stage of our value chain and to support Grünenthal's mission of a world free of pain.
